## About us

Profilfa Kft was founded in 1990 and we began the production of planed softwood products.

Over the years we have evolved in both production volume and quality. During these 30 years of experience we have gained a reputation of a stable and trustworthy business partner.

Our main objective is to offer a long term stable, respectful and trustful partnership. We offer timber products and services according to customers wishes and market requirements. We focus our attention on the efficiency, quality and stability every day. Earning and maintaining the respect and trust of our partner is our priority .

Wood is one of the oldest construction materials in the world. Wood is durable, but also an economical and versatile building material.

Our mission is to provide maximum value for wood and timber, thus opening up many possibilities for the user.

Our raw material is mainly softwood (Spruce) lumber produced in Finnish, Swedish, Slovakian, and Austrian sawmills.

Our factory can process up to 35 000 m<sup>3</sup> of raw material per year.

# Planed Products

	Wood type	Thickness mm	Width mm	Length m	Quality:	Pack of pieces	Stack of packages	Palette m <sup>2</sup>	Outdoor use
